in this new book bauman examines how we have moved away from a heavy and solid hardware focused modernity to a light and liquid software based modernity this passage he argues has brought profound change to all aspects of the human condition the new remoteness and unreachability of global systemic structure coupled with the unstructured and under defined fluid state of the immediate setting of life politics and human togetherness call for the rethinking of the concepts and cognitive frames used to narrate human individual experience and their joint history this book is dedicated to this task bauman selects five of the basic concepts which have served to make sense of shared human life emancipation individuality time space work and community and traces their successive incarnations and changes of meaning liquid modernity concludes the analysis undertaken in bauman s two previous books globalization the human consequences and in search of politics together these volumes form a brilliant analysis of the changing conditions of social and political life by one of the most original thinkers writing today

the passage from solid to liquid modernity has created a new and unprecedented setting for individual life pursuits confronting individuals with a series of challenges never before encountered social forms and institutions no longer have enough time to solidify and cannot serve as frames of reference for human actions and long term life plans so individuals have to find other ways to organise their lives they have to splice together an unending series of short term projects and episodes that don't add up to the kind of sequence to which concepts like career and progress could meaningfully be applied such fragmented lives require individuals to be flexible and adaptable to be constantly ready and willing to change tactics at short notice to abandon commitments and loyalties without regret and to pursue opportunities according to their current availability in liquid modernity the individual must act plan actions and calculate the likely gains and losses of acting or failing to act under conditions of endemic uncertainty zygmunt bauman's brilliant writings on liquid modernity have altered the way we think about the contemporary world in this short book he explores the sources of the endemic uncertainty which shapes our lives today and in so doing he provides the reader with a brief and accessible introduction to his highly original account developed at greater length in his previous books of life in our liquid modern times

liquid life is the kind of life commonly lived in our contemporary liquid modern society liquid life cannot stay on course as liquid modern society cannot keep its shape for long liquid life is a precarious life lived under conditions of constant uncertainty the most acute and stubborn worries that haunt this liquid life are the fears of being caught napping of failing to catch up with fast moving events of overlooking the use by dates and being saddled with worthless possessions of missing the moment calling for a change of tack and being left behind liquid life is also shot through by a contradiction it ought to be a possibly unending series of new beginnings yet precisely for that reason it is full of worries about swift and painless endings without which new beginnings would be unthinkable among the arts of liquid modern living and the skills needed to practice them getting rid of things takes precedence over their acquisition this and other challenges of life in a liquid modern society are traced and unravelled in the successive chapters of this new book by one of the most brilliant and original social thinkers of our time

baumans buch ist ein überzeugendes plädoyer für eine tolerante ambivalenz und damit ein wichtiger beitrag zur aktuellen diskussion um fremdenfeindlichkeit rassismus und nationalismus der anspruch der moderne den menschen klarheit transparenz und ordnung zu bringen eine durchschaubare welt zu schaffen war von vornherein zum scheitern verurteilt weil mit ihm die grundsätzliche ambivalenz der welt und die zufälligkeit unserer existenz unserer gesellschaft und kultur geleugnet wurde erst die postmoderne verabschiedete sich von diesem versprechen war der schlachtruf der moderne freiheit gleichheit brüderlichkeit so war freiheit verschiedenheit toleranz die waffenstillstandsformel der postmoderne und wenn toleranz in solidarität umgewandelt wird kann aus dem waffenstillstand sogar frieden werden

sociology is concerned with modern society but has never come to terms with one of the most distinctive and horrific aspects of modernity the

holocaust the book examines what sociology can teach us about the holocaust but more particularly concentrates upon the lessons which the holocaust has for sociology bauman s work demonstrates that the holocaust has to be understood as deeply involved with the nature of modernity there is nothing comparable to this work available in the sociological literature

in our individualized society we are all artists of life whether we know it or not will it or not and like it or not by decree of society if not by our own choice in this society we are all expected rightly or wrongly to give our lives purpose and form by using our own skills and resources even if we lack the tools and materials with which artists studios need to be equipped for the artist s work to be conceived and executed and we are praised or censured for the results for what we have managed or failed to accomplish and for what we have achieved and lost in our liquid modern society we are also taught to believe that the purpose of the art of life should be and can be happiness though it s not clear what happiness is the images of a happy state keep changing and the state of happiness remains most of the time something yet to be reached this new book by zygmunt bauman one of the most original and influential social thinkers writing today is not a book of designs for the art of life nor a how to book the construction of a design for life and the way it is pursued is and cannot but be an individual responsibility and individual accomplishment it is instead a brilliant account of conditions under which our designs for life are chosen of the constraints that might be imposed on their choice and of the interplay of design accident and character that shape their implementation last but not least it is a study of the ways in which our society the liquid modern individualized society of consumers influences but does not determine the way we construct and narrate our life trajectories

in this ground breaking book shaun best analyses the intellectual knowledge production of zygmunt bauman and his rise to academic stardom in the english speaking world by evaluating the relation between his biography the contexts in which he found himself and why his intellectual creativity is admired by so many people bauman has an interesting contested biography and underwent a number of intellectual shifts from the early stages of his academic career as marxist bauman moved on and for almost ten years he was associated with postmodernity from 1989 1997 but in 2000 he decided to distance himself from postmodernism and rebrand his approach to understanding the contemporary world as liquid modernity best shows how bauman developed his canonised status becoming an intellectual guru in the uk and in australia despite being largely ignored by the academic community in the united states and central europe rather than investigating bauman s academic output as a demonstration of his creative genius best argues that most academic output involves the interplay of multiple factors and this book evaluates the influences on both intellectual choices and the social factors or contexts that led bauman to attach himself to different sets of ideas during his academic career

in this new book zygmunt bauman and riccardo mazzeo examine the contentious issue of the relation between literature and the arts in general and sociology or more generally a branch of the humanities claiming scientific status while many commentators see literature and sociology as radically

different vocations bauman and mazzeo argue that they are bound together by a common purpose and a shared subject matter despite the many differences in terms of their methods and their ways of presenting their findings novels and sociological texts are not at cross purposes indeed it is precisely their differences that make them at once indispensable to each other and mutually complementary the writers of novels and of sociological texts may explore their world from different perspectives seeking and producing different types of data but their products bear the unmistakable marks of their shared origin they feed each other and depend on each other in terms of their agenda their discoveries and the contents of their messages in a world characterized by the continuous search for new sensations and the fetishism of consumption they bring fundamental existential questions back to the public agenda literature and sociology reveal the truth of the human condition only when they stay in one another's company remaining attentive to each other's findings and engaged in a continuous dialogue for only together can they rise to the challenging task of untangling and laying bare the complex intertwining of biography and history as well as of individual and society that totality we are constantly shaping while being shaped by it

in its original formulation culture was intended to be an agent for change a mission undertaken with the aim of educating the people by bringing the best of human thought and creativity to them but in our contemporary liquid modern world culture has lost its missionary role and has become a means of seduction it seeks no longer to enlighten the people but to seduce them the function of culture today is not to satisfy existing needs but to create new ones while simultaneously ensuring that existing needs remain permanently unfulfilled culture today likens itself to a giant department store where the shelves are overflowing with desirable goods that are changed on a daily basis just long enough to stimulate desires whose gratification is perpetually postponed in this new book zygmunt bauman one of the most brilliant and influential social thinkers of our time retraces the peregrinations of the concept of culture and examines its fate in a world marked by the powerful new forces of globalization migration and the intermingling of populations he argues that europe has a particularly important role to play in revitalizing our understanding of culture precisely because europe with its great diversity of peoples languages and histories is the space where the other is always one's neighbour and where each is constantly called upon to learn from everyone else

wir leben in einer welt des Übergangs von der festen zur flüssigen moderne unsicherheit und ungewissheit prägen den alltag vieler menschen denen

ohne stabile gesellschaftliche formen und institutionen ein bezugsrahmen sowohl für ihr handeln als auch für langfristige lebenspläne fehlt und die sich gezwungen sehen ihr leben aus einer endlosen abfolge von kurzfristigen projekten und episoden zusammenzuflicken konzepte wie karriere oder fortschritt können nur noch von wenigen aktiv verfolgt werden und in sicherheit zu leben bedeutet schon heute vielerorts vorausgesetzt man kann es sich leisten bewacht zu werden und abgeschottet zu sein von den wirren der globalen megacitys von armut und dem menschlichen abfall der renommierte soziologe zygmunt bauman erkundet in diesem band die endemische unsicherheit die unser heutiges leben formt in flüchtigen zeiten wird dem individuum ein sehr hohes maß an flexibilität und anpassungsfähigkeit abverlangt und die permanente bereitschaft taktiken zu ändern verpflichtungen und loyalitäten ohne bedauern fallenzulassen und gelegenheiten je nach kurzfristiger verfügbarkeit zu ergreifen leben bedeutet mit der ungewissheit umzugehen

this liquid modern world of ours like all liquids cannot stand still and keep its shape for long everything keeps changing the fashions we follow the events that intermittently catch our attention the things we dream of and things we fear and we the inhabitants of this world in flux feel the need to adjust to its tempo by being flexible and constantly ready to change we want to know what is going on and what is likely to happen but what we get is an avalanche of information that threatens to overwhelm us how are we to sift the information that really matters from the heaps of useless and irrelevant rubbish how are we to derive meaningful messages from senseless noise we face the daunting task of trying to distinguish the important from the insubstantial distil the things that matter from false alarms and flashes in the pan nothing escapes scrutiny so stubbornly as the ordinary things of everyday life hiding in the light of deceptive and misleading familiarity to turn them into objects of attention and scrutiny they must first be torn out from that daily routine the apparently familiar must be made strange this is precisely what zygmunt bauman seeks to do in these 44
